EMBEDDED
POINT OF SALE

ReflectionPOS®

INCREASE PRODUCTIVITY

- Automatic Mix & Match recognition saves time by reducing voids and re-scans.
- Avoid running out of stock through the use of Inventory utilities and reporting.
- Ensure correct items are entered and sold with barcode scanning.
- Exceed customer expecations by engaging in quick, informed transactions.

IMPROVE ORDER ACCURACY

- Reflection POS steps operators through a logical order process.
- Customizable security allows ownership to control which functions employees are permitted to access.

INCREASE PROFITS

- Never lose a sale with the ability to accept Credit, Debit, and Giftcards, as well as Food Stamps and EBT.
- Integrated customer loyalty encourages repeat business.
- Reduce labor costs with enforced schedules and real-time reports.

Reflection POS® is the most reliable and complete retail management system avaliable in its class. Reflection POS® adapts to your way of doing business, making it easy for managers and employees to learn and operate. Reflection POS® has the functionality to meet the demands of most retail operations and the capability to eliminate the threat of viruses due to the embedded operating system. Reflection POS® enables retail stores to provide fast turn arounds and accurate transactions, making for an enjoyable shopping experience for customers.

RETAIL

Why Reflection POS

Reflection POS® is proven software with more than 30,000 systems installed in 35 countries around the world.

Reflection POS® is equipped with the most sophisticated network on the market. System information is automatically replicated on every terminal across the high-speed TCP/IP network. The self-healing network automatically corrects for interruptions and resumes data synchronization without management intervention.

Built on solid-state technology and an embedded operating system, Reflection POS® is not susceptible to viruses or spyware so you can rest assured that it will be ready to perform when you need it.

Why take a chance with anything else!
